TERI Organises Second YUVA Meet for Youth to Understand the 'Social Take' on Climate Change - New Delhi, Delhi, India

Climate change not only impacts the ecology, it has far-reaching consequences for the society, culture, and politics of the nations. Until now, much of the emphasis has been on understanding atmospheric and scientific changes resulting from climate change. However, a 'social take' on it has gained urgency only recently. Against this background, The Energy and Resources Institute (TERI) brought together young people from various
